

WINSLOW ARCHAEOLOGICAL & HISTORICAL SOCIETY

We are a newly formed group dedicated to taking an active role in the archaeology and history of Winslow and surrounding area.

We are organizing field work and site trips as well as historical research from Roman times to 20th century.

Our first project is a field work on the mound at Granborough.

Whether you have experience or not you are welcome to come along. We will give instruction on archaeological procedures. **All abilities and interests are catered for.**
